Dudekula Sameer

Security Analyst – Vulnerability Assessment – Incident Response

Hyderabad, Telangana | +91 9666365014 | dsameer0530@gmail.com

LinkedIn | GitHub | Portfolio

Career Objective

Computer Science graduate specializing in Cybersecurity with hands-on practice in SOC monitoring, SIEM log analysis using Splunk, alert investigation, threat intelligence, and vulnerability assessment. Seeking an entry-level Security Analyst or SOC Analyst role to apply skills in alert triage, security event analysis, and incident response.

Technical Skills

SOC and SIEM: Splunk (SPL, dashboards, alerts), Wazuh, log collection, parsing and normalization, alert triage, enrichment, false-positive handling, incident response
Threat Intelligence: IOC analysis (IP, hash, URL, domain), VirusTotal, Shodan, URLScan.io, MITRE ATT&CK, threat intelligence lifecycle, IOC enrichment
Vulnerability Management: Vulnerability assessment lifecycle, Nessus, OpenVAS, CVSS, risk assessment, vulnerability report analysis
Ethical Hacking and Web Security: Kali Linux, Nmap, Burp Suite, Metasploit, Wireshark, Tcpdump, SQLmap, Hydra, OWASP Top 10, SQL injection, XSS
Network Security: TCP/IP, OSI model, IPv4/IPv6, DNS, ports and protocols, firewalls, VPN, IDS/IPS, Snort, Suricata
Malware and Digital Forensics: Static analysis, file hashing (MD5/SHA-256), Any.Run, Autopsy, FTK Imager, Volatility, evidence handling
Email and Endpoint Security: Phishing investigation, email headers, SPF, DKIM, DMARC, email sandboxing, IOC searches, Sysmon, SentinelOne EDR, Windows Event Viewer, Sysinternals/Procmon
Cloud, IAM and GRC: Cloud security fundamentals, IAM, MFA, least privilege, ISO 27001, ISO 27002, NIST CSF, CIS Controls
Programming and Systems: Python, Java, JavaScript, HTML, CSS, Linux, Windows, Git, GitHub
Data and Analytics: SQL, SQLite, ETL pipelines, Power BI, Plotly, Streamlit, FastAPI
Professional Skills: Communication, report writing, teamwork, problem solving

Academic Projects

- **Malware Analyzer** *Node.js, Express.js, Hybrid Analysis API*
  - Built a web application that submits suspicious files to the Hybrid Analysis API for automated malware analysis.
  - Displayed analysis verdicts, file hashes, and indicators of compromise (IOCs) in a readable report view.
- **Web Application Penetration Testing Framework** *Python, Burp Suite, Nmap, Wireshark, Kali Linux*
  - Developed a structured workflow for web application security testing and vulnerability assessment.
  - Identified common web vulnerabilities and documented findings in structured reports.
- **Sentinel – Network Intrusion Detection System** *Python, Machine Learning*
  - Developed a network intrusion detection system that flags suspicious traffic using traffic analysis and machine learning.
  - Trained and evaluated classification of suspicious versus normal network traffic.

Internship

Bluestock Fintech Remote
Data Analyst Intern *May 2026 – Jul 2026*

- Built financial analytics modules using Python, SQLite, Streamlit, and FastAPI.
- Developed ETL pipelines for 92 Nifty 100 companies and analyzed financial datasets to identify inconsistencies in records.
- Built interactive Plotly dashboards and documented workflows while collaborating with a remote team.

Training

Quality Thought, Ameerpet Hyderabad, Telangana
Cybersecurity Training: SOC operations, VAPT, malware analysis, digital forensics, cloud security, IAM, and GRC

Education

- **Kalasalingam Academy of Research and Education** Madurai, Tamil Nadu
  B.Tech in Computer Science and Engineering (Cybersecurity); CGPA: 8.1/10 *Sep 2022 – Apr 2026*
- **Sri Chaitanya Junior College** Kurnool, Andhra Pradesh
  Intermediate (MPC); Percentage: 79.6% *2020 – 2022*
- **Sri Chaitanya English Medium High School** Kurnool, Andhra Pradesh
  SSC; Percentage: 97% *2020*

Certifications

- KC7 Foundation: Security Analyst I – Cybersecurity Investigation *Oct 2026*
- Forage: Tata Cybersecurity Analyst Job Simulation – IAM *Sep 2026*
- Forage: Deloitte Cyber Job Simulation *Sep 2026*
- Forage: Cybersecurity Analyst Job Simulation *Sep 2026*
- Cisco Networking Academy: Network Defense *Sep 2024*
- EC-Council: Digital Forensics Essentials *Aug 2024*
- IBM Cognitive Class: SQL and Relational Databases 101 *Jun 2026*
- Infosys Springboard: Basics of Python *Jun 2025*
- Infosys Springboard: Java Language Features *Jun 2025*
- CodeChef: Design and Analysis of Algorithms (DAA) *Oct 2024*
- CodeChef: Database Management Systems (DBMS) *Mar 2024*
- Oracle Cloud Infrastructure 2023 AI Certified Foundations Associate *Dec 2023*
